

Advertising & Partnership Opportunities

Young & extremely fast-growing AI blog

Launched in 2025, already outperforming many established competitors in impressions and growth rate.

We deliver permanent, dofollow, topically relevant placements with real organic reach and excellent link juice.

Current Performance

- Average monthly impressions: **~480 000+** (last 28 days: 412 000 and growing fast)
- Average monthly clicks: **~950+**
- Average position: **11.1** (many keywords already in top-10 and climbing)
- Niche: AI Tools, Agents & Productivity – one of the hottest and highest-value niches in 2025
- Unique visitors: **7 000+** per month and rising rapidly
- Newsletter subscribers: **+254 %** MoM growth

*The low CTR is the price we pay for ranking on top review-style queries where users often get the answer directly in the SERP – but every visitor who does click is an extremely high-intent, perfectly targeted client.

Full Sponsored Review / Guest Post
